Education

Grand Valley State University
Bachelor of Science
Major: Computer Science
GPA: 3.02

Allendale, MI
May 2026

Skills

Programming Languages: C, Python, Java, JavaScript, C++, and familiar with PHP, SQL, and Assembly
Mathematics: Algebra, Geometry, and Calculus
Hardware and Software troubleshooting repair
Hardware and Software installation
Microsoft Windows and productivity applications
Project Management

Relevant Work Experience

Forest Hills Public Schools
Technology Support/IT Assistant

Grand Rapids, MI
May 2025 – October 2025

- Diagnosed and repaired broken devices and equipment, restoring them to full working condition
- Responded to and resolved requests from teachers and students allowing for consistent technology uptime in class
- Updated software on multiple platforms and device interfaces
- Provided technical support to ensure minimal downtime in classroom environments
- Cleaned, Replaced and took inventory of all technology of all buildings overseen by Forest Hills over the summer

Project Experience

GVSU Senior Capstone Project: CU*Answers

Objective: To develop custom web crawlers to gather and consolidate CU*Answers metadata from multiple URLs

- Processed and organized the collected data to train a large language model (LLM) for automated customer support
- Contributed to a solution designed to reduce customer service representative (CSR) call volume and improve workflow efficiency under the supervision of CU*Answers tech leads

Custom Programming Language Project

Objective: To design and implement a programming language with custom syntax and semantics

- Developed a tokenizer and parser to interpret user commands, enabling users to create drawings using commands with customizable colors.

Swim Log Mobile App

Objective: To design and develop a mobile application that allows users to track swim workouts and generate personalized daily swim routines

- Focused on creating an intuitive interface for recording progress and organizing training sessions

Autonomous Robot Racecar

Objective: To build and program an autonomous robot racecar capable of navigating a predetermined course using pathfinding algorithms

- Collaborated on integrating hardware and software to achieve reliable navigation and obstacle handling

Other Work Experience

The Meadows at Grand Valley State University
Cart Staff

Allendale, MI
April 2024 – November 2025
